

GOLD COAST JUNIPER

Juniperus x pfitzeriana 'Aurea Improved'

Height: 3' **Spread:** 4'

Location: Zone 3, full sun

Shape: Compact, mounded

Foliage: Lacy, golden

Notes: Outstanding golden color on lacy foliage and a compact form make this evergreen an excellent choice as a colorful accent. Color is retained and deepens in winter better than other gold tipped varieties.

GREY OWL JUNIPER

Juniperus virginiana 'Grey Owl'

Height: 2' **Spread:** 4'

Location: Zone 2, full sun

Shape: Spreading

Foliage: Silvery-gray, feathery

Notes: One of the best evergreens for hot, poor, dry soil and city conditions. A vigorous groundcover with few faults. Foliage is a smoky blue-gray and holds its color well in winter. Generally produces an abundance of silvery berries, often used for winter decorations.
