

GOLDEN BARBERRY

Berberis thunbergii 'Aurea'

Height: 3-4' **Spread:** 3-4'

Location: Zone 4, sun to part shade

Shape: Dense, upright

Foliage: Bright yellow all season

Notes: The bright leaves make a vivid accent on a slow growing, dense mound of foliage. Leaves emerge yellow, maturing to pale green for the season. Fruit matures into small, bright red berries that stand out amidst the leaves. Autumn foliage ranges in gold to orange with occasional red.

GOLDEN NUGGET BARBERRY

Berberis thunbergii 'Monlers'

Height: 1.5-2' **Spread:** 2'

Location: Zone 4, sun to part shade

Shape: Rounded, densely compact

Foliage: Golden, orange in fall

Notes: A new golden barberry in an exciting, compact, dwarf form. Displays attractive, non-burning, golden foliage with an orange cast most of the season. Excellent color contrast in borders.
