

HONEYBUSH HONEYSUCKLE

Lonicera periclymenum 'Honeybush'

Height: 2' **Spread:** 4'

Location: Zone 4, sun, moist, well-drained soil

Shape: Groundcover

Foliage: Green, plum in fall

Notes: This introduction is a groundcover form of our familiar native climber. Sprays of old fashion honeysuckle flowers of red and cream adorn the plant from June-August. Plant it where you will be able to enjoy the wonderful fragrance.
