

AMUR MAPLE

Acer ginnala

Height: 15-20' **Spread:** 15-20'

Location: Zone 3, sun to part shade, well-drained soil

Shape: Irregular branching, rounded

Foliage: Green, scarlet in fall

Notes: This tree has a graceful, irregular shape formed by slender spreading branches. Extremely hardy, it is an excellent xeriscape plant, and offers outstanding fall color. Amur Maple does not store well over winter. Fragrant, creamy white flowers in May.
